Mission Statement: This Corporation’s primary purpose shall be to support Charities in Tillamook County.

One paragraph about your organization’s history/work:

Our charity began in 1998 in one room of a building in Wheeler and they were able to donate in 1999 \$1,000.00. Since then we have donated \$1,800,000 to North Tillamook County Charities. In 2004 we expanded and added another store in Rockaway Beach named Hope Chest Too Thrift Shop. The Too showing we were an addition to the first one. In around 2008 the Wheeler store experienced their third flooding, which the landlord would not correct, so a house in Nehalem was rented and it has proved to be a wonderful decision. We have 60 volunteers and are always looking for more as each store needs 24 volunteers a week to cover our shifts, which are approximately 3 ½ hours each. Some of our volunteers go south for the winter and others travel a lot sometimes for a month at a time. They are all wonderful to work with. All in all, we are very fortunate and appreciative to receive so many nice donations from the community. We get many complements on the cleanliness of our stores and merchandise.

Mission Statement: Our primary mission is to ensure the continued existence of our 115 year-old tradition of dory activity (commercial, sport charter, and private fishing) from Cape Kiwanda: To protect, defend and promote the traditional cultural and economic values of the dory fleet; To protect the usual and customary access to, and use of, the public beach at Cape Kiwanda for all the traditional activities associated with dory vessels; and to maintain and improve all traditional vehicle and pedestrian access and vehicle parking on public lands at Cape Kiwanda; To support safety regulations consistent with traditional dory vessel practices; To actively seek laws and regulations that provide the maximum recreational and commercial fishing opportunities consistent with realistic conservation of the resources; and To establish and support projects and events that promote the traditional, cultural, historic and educational values of the dory fleet.

One paragraph about your organization’s history/work:

Due to COVID-19 we had to cancel events like the annual Dory Days and Blessing of the Fleet but were able to continue fishing from Cape Kiwanda, advocating for traditional launching and fishing rights and contributing to our fellow community organizations. Thanks to our steady and increasing membership dues, the PCDA is able to provide nearly \$10,000 annually to other programs and projects in the community and fortunately this year was no different. Additionally, to address community needs around COVID-19, the PCDA was able to provide \$1,000 in funding to the Tillamook County Food Bank in the spring. In early fall the PCDA hosted a community cleanup day which included a beach cleanup of the traditional dory beach adopted through SOLVE, removing dozens of wheelbarrow loads of sand from the curbs, sidewalks, and observation deck at the Cape Kiwanda parking lot, trimming back beach grass as well as weed removal from the area. The group of 20 PCDA supporters then moved to the Kiawanda Community Center to install the Chief Kiawanda sign that we rebuilt in the previous week after it had sustained wind damage and cleaned the gutters on the building.

Mission Statement: The Salmon SuperHwy is an unprecedented effort to restore access for fish to almost 180 miles of blocked habitat throughout six major salmon and steelhead rivers in the Tillamook and Nestucca watersheds. Completion of these projects will reconnect historic habitat, reduce chronic flooding, improve recreation opportunities, and stimulate the local economy both now and for the future.

One paragraph about your organization’s history/work:

The Salmon SuperHwy Partnership is a group of local, state, and federal partners working together reconnect 180 miles of blocked stream habitat by addressing a strategically prioritized list of fish passage barriers. These undersized and failing culverts block fish access, inhibit natural stream processes, cause flooding, and are at risk for catastrophic failure, causing road washouts, closures, and public safety issues. By working together, we are building more resilient habitat and infrastructure that will benefit Tillamook County residents and visitors now and into the future.
